

Welcome to The Pattern Paradigm

A new approach to philosophy that is superior to any other philosophical paradigm in terms of its Self-consistency, Comprehensiveness, Accuracy, Logic, Explicitness and Simplicity.

Much of The Pattern Paradigm has been described in videos on Youtube in the channel 'Pirate Philosophy'.

This website is primarily a platform for the transcripts of those videos.

Questions and comments are welcome and I will try to respond to all of them.

The Pattern Paradigm makes no attempt to fit in with any other philosophy.
